Letter of Reference for Manna Consulting

This letter is to confirm that Kindernothilfe (KNH) has used the services of Manna Consulting during 2017 to conduct an external evaluation of ACAT, a partner of KNH in KwaZulu-Natal.

I can confirm from my experience that Manna Consulting are proficient in the following areas:

- Evaluation design, qualitative and quantitative data collection methods, participatory evaluation techniques (which including the involvement of ACAT staff and volunteers in data collection processes as well as ACAT management in feedback on draft report).
- Good project and people management skills in dealing with different stakeholders (including beneficiaries, intermediaries, government and non-governmental stakeholders).
- The ability to deliver within the set time-frames (the evaluation was completed on time and in a very satisfactory manner; the final evaluation report was of a high quality).

I am happy to recommend Manna Consulting to other donors.

Please do be in touch should you require further information.

Yours sincerely

PHIL DONNELL

Country Coordinator: South Africa
